PROJECTS

Mart - Ecommerce Website (With React) | HTML, CSS, JavaScript, React, Tailwind CSS

Link: <https://mart-ecom.vercel.app/>

An Ecommerce website which introduced my React development skills.

- A fully responsive and functional design, ensuring optimal user experience across various devices and screen sizes.
- A clean and modern aesthetic, with a strong emphasis on enhancing the user experience through intuitive and visually appealing design elements.
- An 'Add to Cart' functionality, allowing users to seamlessly add products to their shopping cart for subsequent checkout.

Random Webpage | HTML, CSS, Bootstrap, JavaScript

My client gave me a random webpage design and asked me to clone it using HTML, CSS, and JavaScript to test my frontend development skills.

- Developed a responsive and visually appealing random webpage using HTML5, CSS3, and JavaScript.
- The output of this project is very good and I tried to clone it as it is.

Personal Portfolio Website | HTML, CSS, Bootstrap, JavaScript

Link: <https://chetan-b9.github.io/chetan-portfolio/>

My personal project

- Designed and developed a responsive and visually appealing personal portfolio website using HTML, CSS, Bootstrap and JavaScript.
- Implemented a clean and modern design with a focus on user experience and showcasing my frontend skills.
- Showcased my frontend development skills and projects through the website.

Student Attendance System | HTML, CSS, JavaScript, PHP, MySQL

Link: <https://chetan-b9.github.io/chetan-portfolio/project-info.html>

Simplify the attendance process for teachers as well as students

- Developed a robust attendance system using HTML, CSS, JavaScript, PHP, and MySQL
- Created an easy-to-use and visually appealing interface for accurate student attendance tracking
- Utilized PHP and MySQL to build a backend system for storing and managing student attendance records
- Leveraged JavaScript to add interactivity and enhance the user experience of the application
